

5000 BINOCULAR STEREOMICROSCOPE (20X)

SKU: 159556A

5000 - Fixed-magnification binocular stereomicroscope equipped with a 10 x lens and a 2 x objective, for a magnification of **20 x**.

Integrated **LED lighting** on flexible arm.

The special support allows to obtain a working area 150 mm distant from the base.

The objective is easily removable. By replacing it with a 1 x objective (to be purchased separately, NOT included), the microscope reaches a magnification of **10 x**.

Delivery includes eyepiece caps and dust cover.

Premium seller product, ideal for mobile phone repair service centers.
