

WFEP WELLER FUME EXTRACTION UNIT WITH PUMP | T0053638699N

SKU: T0053638699

WELLER WFE P FUME EXTRACTION UNIT

WFE P - Portable fume extraction unit for tip suction, equipped with integrated **vacuum pump**.

Provided with **compact filter** (H13 particle filter + wide band gas filter, 50% active carbons and 50% chemisorb) and F7-class **pre-filter mat**.

Weller FE type (Fume Extraction) soldering irons can be connected directly to the unit, without the need of accessories.

Ideal for occasional, non-continuous use. For long term industrial use, a WFE model with external compressed air supply is recommended.

Weller product no.: **T0053638699N**.
