

SKU: I-TOOL-REPAIR-MAT

BENCH PROTECTION MAT 500°C

High-temperature resistant benchtop mat for soldering work station, 45x30cm.

Equipped with a **built-in ruler** and several **compartments (magnetic and non-magnetic)** for the storage of tools and components.

Ideal for PCB assembly and soldering operations, it provides a large work area. The ruler along the mat bottom allows you to take measurements from 0 to 36 cm quickly and easily. It protects the worktop surface, keeping your space clean and organized.

Its surface has a **non-stick layer** that prevents glue and soldering cream from sticking to the mat.

The material it is made of is flexible and easy to roll up or fold: it can be stored after use.

It can be washed with water. Residues are easy removed, leaving the surface always clean.

Specifications

- Colour: Blue
- Material: **Silicone, non-slip and non-toxic, Non-stick surface**
- Resistance to high temperatures: **up to 500 °C**
- Built-in ruler: from 0 up to 36 cm
- Dimensions: **450 x 300 x 7H mm**

- Weight: 0.506 kg
- Barcode: 8059018367676.

ATTENTION: THE SUPPLY INCLUDES ONLY THE MAT
THE EQUIPMENT SHOWN IN THE PHOTOGRAPH IS USED FOR ILLUSTRATIVE PURPOSES.
