

CONDUCTIVE ESD STEP STOOL (Ø283 X 410H MM)

SKU: 640654A

ANTISTATIC STOOL WITH STEP AND CASTORS

Anti-static ESD safe step stool made of conductive plastic, black colour.

Particularly light but solid at the same time, it is equipped with **3 spring-loaded wheels** which allow it to be moved smoothly when it is unloaded, while **it remains fixed when loaded**, starting from a load of 5 kg. Thanks to this system, it can be used also as a ladder.

Specifications

- Loading capacity: **150 kg**
- Total height (unloaded): 410 mm
- Diameter: Ø 283 mm
- Material: **Volume conductive polypropylene** - Colour: Black
- Resistance to ground: approx. 10^4 Ohm
- Stool weight: 2.5 kg.
