

DENON SC7000Z DESOLDERING TOOL (100W)

SKU: 146417B

SC-7000Z GUN TYPE DESOLDERING TOOL

DEN-ON SC-7000Z - Desoldering tool with built-in pump, designed for Lead-Free alloys.

It provides the best work efficiency with no failure, thanks to the combination of a 100W ceramic heater with sensor feedback temperature control circuit and high vacuum capacity. A direct connection between the diaphragm pump and the tip can provide high vacuum efficiency, making it suitable also for 8-12 layered PCBs.

SC-7000Z features a portable, compact design, low noise and low vibration.

Specifications

- Voltage: AC 100 V, 120 V, 230 V, 50/60 Hz
- Power consumption: 120 W
- **Ceramic heater: 100 W**
- Motor output: 12 W
- Pump type: Diaphragm
- **Vacuum attained: -86 kpa**
- **Time required to reach max. vacuum: 0.1 sec**
- **Temperature range: 350-500 °C**
- Air flow rate (open) 15 l/min

- Hot air max. temperature: 400 °C
- Insulation resistance: more than 100 MΩ
- ESD safe: Yes
- Weight: 420 g.
