

DIGITAL DISPENSING SYSTEM FOR SOLDER PASTE, GEL FLUX, GLUE

SKU: 650230P

S2 DIGITAL DISPENSING UNIT

Dispensing system for viscous fluids and pastes, equipped with footpedal control.

Suitable for use with solder paste, gel flux and adhesives.

Dispensing time is digitally controlled, enabling repeated quantified dispensing and precise timing.

The vacuum analog adjustment functions as a **drip-stop**.

ATTENTION: Requires compressed air (NOT included).
