

ESD ACRYLIC TRANSPARENT PANEL 2X1M THICK 10MM

SKU: 101374B

ESD Acrylic transparent panel 2x1m, 10mm thick

This clear acrylic sheets are surface coated with an extremely thin and highly abrasion resistant dissipative film which keeps the transparency and the working properties of acrylic sheets unvaried.

Coated with a protection film on both sides to avoid damages during transportation and storage.

Features

- Material: Vinyl chloride of hard quality
- Permanent dissipative coating
- Excellent abrasion resistance: 3H ÷ 5H
- Superb chemical resistance
- Total light transmittance: over 80%
- Transparent
- Machineable
- $R_s: 10^6 \div 10^8$ Ohm
