

TEKTILT ESD INSPECTION TABLE WITH 4DI LENS FOR TEKSCOPE (Ø220MM)

SKU: 159560KB

Anti-static ESD safe tilting support, furnished with a **4-dioptres lens** for use with TEK-SCOPE-PLUS model digital microscope.
Rotation: 360°. It allows to inspect any kind of component in all 3D positions.
Diameter: Ø 220 mm. Height: 73 mm.
Ideal-Tek product no.: **TEK-TILT-PLUS**.

Further details:

- TEK-TILT-PLUS reduces the distance between the lens and the observed object: for this reason it is necessary to mount a 4di lens on the microscope
- With the TEK-TILT-PLUS and the 4di lens, TEK-SCOPE-PLUS achieves an optical magnification of 55-60x (depending on the thickness and position of the object).
