

COMBINABLE ESD PCB RACK (79 SLOTS) | EM FRAME

SKU: emframe

COMBINABLE ESD PCB RACK

EM Frame - Combinable ESD PCB rack provides a safe storage and handling of mounted PCBs or trays. Made of dissipative polypropylene, its modularity fits easily to all the requested widths.

Rack composition:

- **Sidewall with 79 slots**, dimensions 480x290mm, width 35mm (El.Mi product Nr.: 143476A)
- **Intermediate wall with 79 slots**, dimensions 470x280mm, width 40mm (El.Mi product Nr.: 144152A)
- **Aluminium connecting rail** with section 30x15 mm, **custom length (3m max.)***** (El.Mi product Nr.: MA0008A)
- Transportation handle, leather (El.Mi product Nr.: 143481A)

*****ATTENTION:** In order to define the exact connecting rails length, add to the board width **20mm** for each sidewall and **6mm** for intermediate wall
