

## TWO-SIDES PRESENSITIZED BOARD POSITIVE BASE (1.5MM, 35M CU)

**SKU:** FR4-1.5-35CU-2

## **BUNGARD PRESENSITIZED BASE MATERIAL - DOUBLE SIDE**

**FR4 two-sides boards 1.5 mm thick**, copper thickness 35 micron, presensitized with **positive photoresist**, IPC 4101A compliant. Provided with protective film.

**Available in 8 different sizes (mm)**: **75×100** (101187C), **100×160** (101073C), **125×175** (101349B), **150×200** (101075C), **160×233.4** (101068F), **150×250** (101363B), **200×250** (101372B), **210×300** (101076C).

The **Bungard original plates** are a guarantee of quality and linearity in the process of **PCB production**. The laminates used for the realization of Bungard plates allow a production error free, fast and flexible even for small series or prototypes.

## **VARIATIONS**

SKU	Description	Dimensions
101073C		100x160 mm

SKU	Description	Dimensions
101349B		125x175 mm
101075C		150x200 mm
101363B		150x250 mm
101068F		160x233,4 mm
101372B		200x250 mm
101076C		210x300 mm
101187C		75x100 mm
