

TWO-SIDES PRESENSITIZED BOARD POSITIVE BASE (1.5MM, 35M CU)

SKU: FR4-1.5-35CU-2

BUNGARD PRESENSITIZED BASE MATERIAL - DOUBLE SIDE

FR4 two-sides boards 1.5 mm thick, copper thickness 35 micron, presensitized with **positive photoresist**, IPC 4101A compliant. Provided with protective film.

Available in 8 different sizes (mm): 75×100 (101187C), 100×160 (101073C), 125×175 (101349B), 150×200 (101075C), 160×233.4 (101068F), 150×250 (101363B), 200×250 (101372B), 210×300 (101076C).

The **Bungard original plates** are a guarantee of quality and linearity in the process of **PCB production**. The laminates used for the realization of Bungard plates allow a production error free, fast and flexible even for small series or prototypes.

VARIATIONS

SKU	Description	Dimensions
101073C		100 x 160 mm

SKU	Description	Dimensions
101349B		125 x 175 mm
101075C		150 x 200 mm
101363B		150 x 250 mm
101068F		160 x 233.4 mm
101372B		200 x 250 mm
101076C		210 x 300 mm
