

TWO-SIDES PRESENSITIZED BOARD POSITIVE BASE (1.5MM, 35M CU)

SKU: FR4-1.5-35CU-2

BUNGARD PRESENSITIZED BASE MATERIAL - DOUBLE SIDE

FR4 two-sides boards 1.5 mm thick, copper thickness 35 micron, presensitized with **positive photoresist**, IPC 4101A compliant. Provided with protective film.

Available in 8 different sizes (mm): **75×100** (101187C), **100×160** (101073C), **125×175** (101349B), **150×200** (101075C), **160×233.4** (101068F), **150×250** (101363B), **200×250** (101372B), **210×300** (101076C).

The **Bungard original plates** are a guarantee of quality and linearity in the process of **PCB production**. The laminates used for the realization of Bungard plates allow a production error free, fast and flexible even for small series or prototypes.

VARIATIONS

SKU	Description	Dimensions
101073C		100 x 160 mm

SKU	Description	Dimensions
101349B		125 x 175 mm
101075C		150 x 200 mm
101363B		150 x 250 mm
101068F		160 x 233.4 mm
101372B		200 x 250 mm
101076C		210 x 300 mm
101187C		75 x 100 mm
