

CAB MAESTRO 3E/450 PCB SEPARATOR (FR4)

SKU: 146989B

CAB MAESTRO 3E PCB SEPARATOR

MAESTRO 3E/450 - PCB separator equipped with titanium blades, suitable for cutting FR4.

It separates both small and large pre-scored PCBs.

Table and rest can be continuously adjusted to the most suitable working position.

The slit between the linear blade and the rest can be adjusted to ensure that the side strips fall through and are sorted out.

Cab product no.: **8933945**.

Specifications

- Operation: **by hand**
- Max. separation length: **450mm**
- Separation type: Circular blade (component side:), Linear blade (solder side)
- Increase in external dimensions after separation: typical 0.2mm
- Material: **Tin blades** (for FR4)
- Temperature/Humidity (not condensing):
 - Operation: + 5 -40°C / 10 -85%
 - Storage: + 0 -60°C / 20 -80%
 - Transport: - 25 - 60°C / 20 - 80%

- Approvals: CE, FCC class A

Scope of supply: PCB Separator, Hexagon key (2mm), Operation manual (DEU, EN).
