

AI-280-145 LENS POLARIZING FILTER FOR INSPEX (52MM)

SKU: 151451P

POLARIZING FILTER FOR INSPEX LENSES

Ash Technologies AI-280-145 - Lens polarizing filter. Digital microscopes optional add on which can be used in conjunction with **Inspex HD 1080p** and **HD 720p** models with 3x, 4x, 5x, or 10x lenses. The polarizing filter helps manage reflections, or suppress glare and is extremely useful for inspecting transparent objects. The rotational orientation of the filter is adjusted for the preferred effect.
