

EM1000 AUTOMATIC ADHESIVE TAPE DISPENSER

SKU: 981257A

AUTOMATIC DISPENSER OF ADHESIVE TAPE

EM1000 - Automatic adhesive tape dispenser, programmable for cutting pieces of tape in **1 length**.

Helpful both for packaging and soldering operations that require the use of kapton tape.

It is compatible with any kind of tape (kapton, polyamide, vinyl, teflon, mylar, nomex, aluminium, polyethylene, cellophane, paper...), except the double sided.

Functioning

- Pushing the START button, EM100 cuts the tape in the programmed length
- When the operator takes the cut piece of tape from the dispenser, a sensor registers the operation and starts the next cut.
