

RK10A ESD STAND FOR DINO-LITE MICROSCOPES

SKU: 149893T

DINO-LITE RK-10A BENCHTOP STAND

RK-10A - Anti-static ESD safe stand for Dino-Lite microscopes, equipped with adjustable horizontal arm and RK-10-EX extension arm.

Top-quality, sturdy support characterized by high stability and versatility. It allows a very precise focus adjustment.

The **quick-release button** allows for a fast and convenient vertical movement. The **fine-focus adjustment knob** is especially useful when working at high magnification. An **adjustable safety stop** prevents the microscope from touching the specimen. The RK-10-EX **additional arm** (included) increases the effective reach allowing to observe larger objects.

Thanks to these features, the RK-10A is an ideal stand for precise orientation and positioning. It allows maximum productivity and ease of use in a wide range of environments including industrial, scientific and laboratory settings.

Specifications

- Compatibility: Suitable for all Dino-Lite microscope models
- Structure material: Stainless steel, Aluminium
- ESD safe: Yes
- Adjustable horizontal arm: Max. length 15 cm - Rotation 360°
- Dimensions (Width x Length x Height): 15 x 22 x 23 cm
