

RM1000-KIT RESISTANCE METER KIT WITH 5 POUNDS ELECTRODES

SKU: 159557B

RM 1000 KIT FOR ESD TEST

RM 1000-KIT Meter with two 5 pound electrodes for measuring surface resistance, volume resistance and resistance to ground.

The tester is equipped with a **built-in temperature and humidity sensor** and a **USB interface** to read out data in a csv format file.

The use of a complete test-kit, instead of a single measuring device with separate electrodes, is recommended.

Specifications

Test range: 1 K0hm - 1 T0hmTest voltage: 10 V, 100 V

· Automatic adjustment of the measuring voltage

Adjustment of upper/lower limit-values

Coloured, graphical TFT touch display

• Dimensions: 115 x 78 x 24 mm

• Power supply: Battery or rechargeable battery (2 x Mignon AA).

Package contents: Meter with manufacturer's calibration certificate - Carrying case with lid and foam inserts - 2 x Test leads - 2 x Alligator clips - 2 x Five pound electrodes - User manual (German and English, other languages are available upon request only).
