

DTM100 TEMPERATURE MEASURING DEVICE FOR SOLDERING TIPS

SKU: 148287B

TEMPERATURE MEASURING INSTRUMENT

DTM 100 - Temperature measuring device with digital display.

Thanks to the patented sensor head (K-type) with Chromel-Alumel sensor wires is suitable for accurate measurements even of very fine soldering tips.

Specifications

- Measuring range: $-50 \div 1150$ °C
- Operating temperature: $0 - 45$ °C
- Power supply: 9 V flat battery (6F22)
- ESD safe: Yes
- RoHS compliant: Yes.

Package contents: Temperature measuring device - Sensor - Plastic case.
