

TESA 4341 - HIGH TEMPERATURE MASKING TAPE (19MM X 50M)

SKU: 981252C

TESA 4341 SELF-ADHESIVE PAPER TAPE

High-temperature resistant tape for professional masking applications.

Suitable for sensitive surfaces, easy to use, ideal for ambitious lacquering work.

Excellent adhesive strength, highly durable tear-resistant properties. Due to its great flexibility and elasticity, this tape is perfect for professional varnish work. The supple masking tape can withstand very high temperatures (up to 140 °C) and can also be used on tricky surfaces. It is also **watertight** and bonds well with varnishes and fillers. After oven drying, the high temperature masking tape is easy to remove.

Tesa product no.: **4341**.

Specifications

- Dimensions: **19 mm x 50 m** - Total thickness: 190 µm
- Temperature resistance (60 min.): **up to 140 °C**
- Materials
 - Backing: Slightly-creped paper
 - Adhesive: Solvent-free, natural rubber

- Colour: Brown.
