

LS25 WELLER SALMIAK STONE FOR SOLDERING TIP CLEANING | T0054002899N

SKU: T0054002899

WELLER LS25 CLEANING STONE

LS25 - High density ammonium chloride briquette for soldering tip cleaning.

It prolongs the life of soldering tips by removing oxidation.

Weller Consumer product no.: **T0054002899N**.

General information: Deoxidizer. Ammonium chloride is a **white salt** which sublimates without melting above 120-335°C. Above this temperature, it decomposes into NH₃ and HCl.

As its aqueous solution, solid ammonium chloride **acts as a weak acid**, therefore it can be used to **dissolve metal oxides on metallic surfaces like copper, brass, nickel, iron and tin**. Predominantly used for soldering tips cleaning, ammonium chloride is also utilized as a flux for soldering, etching and tinning of metal surfaces.

Application: Repeatedly rub the hot tip on the block. In case you do not need to continue with the soldering, coat the clean tip with the alloy.

Specifications

- Material: **Ammonium chloride**
- Dimensions (LxWxH): 65 x 45 x 20 mm - Weight: approx. **70 g**
- Hygroscopic product: dry storage is required.

PRODUCT IDENTIFIER IN THE SAFETY DATA SHEET:

Trade name: **Salmiaklotstein / Cleaning stone for soldering tips / Pierre amoniacale / Salmiaksteen**

LABEL ELEMENTS:

Hazard labelling pursuant to EC Regulation 1272/2008 (CLP) and subsequent amendments and supplements.

Hazard pictograms:

Danger. Harmful if swallowed. Causes serious eye irritation.

Precautionary statements: Wash hands thoroughly after handling – Wear protective gloves/protective clothing/eye protection/face protection – IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell – IF IN EYES: Rinse cautiously for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing – If eye irritation persists: Get medical advice/attention – Dispose of contents/container in industrial incinerator.

Contains:

Ammonium chloride - 12125-02-9 - EC 235-186-4 - Index 017-014-00-8 - Acute Tox. 4, H302 / Eye Irrit. 2. H319
