

WELLER WSW SOLDER WIRE LF ALLOY SAC305 M1 (7 SIZES)

SKU: WSW

LF SOLDERING WIRE SN96.5/AG3.0/CU0.5

WSW - Weller solder wire made of SAC 305 lead-free alloy (Sn3.0Ag0.5Cu). Available in **7 diameters**.

Flux class: **M1**, activated on average at **3.5%**. Melting point: **217 - 221 °C**.

Universal solder wire for various applications. The patented **Reduced Splash** feature increases user safety and clean workbench. With a guaranteed **100% continuous flux core**, combined with pure first metal melting, WSW avoids costly rework and enables long-term, highly durable solder joints without cracking, even on difficult surfaces.

Selectable sizes (Diameter):

- Ø **0.2 mm** - Reel weight: **10 g** - Weller product no.: **T0051386570**
- Ø **0.3 mm** - Reel weight: **0.5 kg** - Weller product no.: **T0051386599**
- Ø **0.5 mm** - Reel weight: **0.5 kg** - Weller product no.: **T0051386499**
- Ø **0.8 mm** - Reel weight: **0.5 kg** - Weller product no.: **T0051386399**
- Ø **1.0 mm** - Reel weight: **0.5 kg** - Weller product no.: **T0051386299**
- Ø **1.2 mm** - Reel weight: **0.5 kg** - Weller product no.: **T0051386199**
- Ø **1.6 mm** - Reel weight: **0.5 kg** - Weller product no.: **T0051386099**.
