

WELLER WXAIR REWORK MODULE (2 CHANNELS, 70W) | T0053452699

SKU: T0053452699

WXAIR DESOLDERING AND HOT AIR UNIT

Weller WXair Module - Rework unit with 2 channels for vacuum and air, 70 W, 100-230 V F/G.

Add-on for WXsmart and WX soldering stations. Combined with a **WXsmart** control unit, it turns it into an all-in-one rework solution, grouping all rework applications in a single station. Combined with a **WX** control unit, it turns it into a hot air and desoldering station.

Thanks to the **integrated high-performance rotary vane pump**, WXair can be operated independently from external air pressure supply. Exchangeable filters extend the life time of the pump.

Optionally, both channels can be activated by a foot switch (NOT included, Weller no. T0058764746N).

Weller product no.: **T0053452699**.

Specifications

- Power: **70 W**
- Voltage: 100-240 Vac, 50/60 Hz
- Channels: **2 (1 for vacuum, 1 for hot air)**
- Capacity: 18 l/min

- Vacuum: 70 kPa
- **Compatibilità: WXS, WX**
- **Compatibility:** WXDP 120 Desoldering iron 120 W - WXDV 120 Desoldering iron 120 W - WXHAP 200 Hot air soldering iron 200 W
- Fuse: T4A
- Ambient temperature: 10 - 40 °C
- ESD safe: Yes
- Dimensions (WxDxH): 195 x 154 x 87 mm
- Weight: 1.28 kg.
