

WELLER WXUPSMS SOLDERING IRON (150W) | T0052923599

SKU: T0052923599

WXUPS MS SOLDERING IRON

Weller WXUPS MS - Soldering iron 150 W, 24 V (tool without tip) with Active-Tip heating technology.
Perfect for heavy-duty soldering applications with component sizes from XL to XXL (1612 and bigger).
Save individual soldering processes with integrated parameter memory.
Intelligent tool detection protects from defaults.
Reduced energy consumption thanks to the built-in motion sensor.
Weller product no.: **T0052923599**.

Specifications

- Power: **150 W** - High power at the point: Thermal Core Technology provides 150 W power, delivering heat through the joint, even providing precisely soldered multilayer boards
- Voltage: 24 Vac
- Temperature range: **100 - 450 °C**
- Heating time (50 - 350 °C): approx. 7 seconds
- Maximum protection: IPC industry standards
- Dimensions (LxWxH): 272 x 62 x 42 mm
- Weight: approx. 62 g

- WXS compatible: Yes
- **Tip range: RTUS MS**
- Safety rest: WSR 200.
