

WT1011M WELLER SOLDERING STATION (95W) | T0053449699

SKU: T0053449699

WELLER SPECIAL OFFER VALID UNTIL JULY 16, 2026!

WELLER WT 1011M SOLDERING STATION

Set with WT 1M control unit (95 W) and WTPP MS soldering iron (40 W)

WT 1011M - One-channel digital soldering station 95 W / 230 V with WTPP MS iron and WSR 205 safety rest.

Kit for the smallest **Nano and Pico** soldering applications, equipped with RTP MIL SPEC active tip, characterized by a very quick heating time (**5 seconds**).

The WT1M stations offer great **flexibility**, being able to integrate with both new nano and micro tools featuring active tip technology, as well as existing ones with passive tip technology, ensuring coverage of a variety of soldering needs.

Weller product no.: **T0053449699**.

Scope of supply:

- **WT 1M** (T0053447699) - 1 Channel power unit, 95 W / 230 V
- **WTPP MS** (T0052924099) – **Nano/Pico soldering iron 40 W (55 W)** 12 Vac (tool without tip). Temperature range:

- 100-450 °C.** Heating time (50–350 °C): approx. **3 sec.** Stand-by function. Tip family: RTM MS (military standard)
- **RTP 004 S MS** (T0050102399) – **RT Pico soldering tip, chisel (Ø 0.4 x 0.2 mm).** MIL-SPEC compliant, high-performance active tip for the smallest SMD components: from 0402 to 01005
 - **WSR 205** (T0052924199) – **Safety rest** with double cleaning options.
